Our Vestige World

My Dear Vestigians,

Good morning to you all!

I always feel extremely delighted to reach out to you with a bunch of good news, for which I have to credit you. In all the 17 years of our existence, it's your resilience and perseverance that has fuelled Vestige's unparalleled growth in the global direct selling industry.

Now, thanks to your incessant pursuance for success, Vestige became the world's only Indian-origin direct selling company to rank 36 among the top 100 companies as per DSN Global 100 Awards. For the last four years, we have been consistently receiving the DSN Global 100 awards and we credit your zeal for perfection and your determination for this.

As we are going through the crucial times of a pandemic, the issue of health is in prime focus. Maintaining good hygiene, following the COVID-19 protocols and guidelines, as well as vaccinating ourselves from the menace all becomes essential now. At the same time, this has provided us an opportunity to emerge stronger by bringing more people in the ambit of preventive wellness through our world-class healthcare supplements.

We must remember that Vestige was founded on health and wellness, and through gaining good health our people can achieve success. One who doesn't

have good health, can't enjoy the fruits of success. So it's important that you pick up our innovative health supplements, nutraceuticals, Ayurvedic proprietary medicines, etc, and start taking care of your primary health needs. Good health will help you achieve bigger success in life. Moreover, by sharing our health products with prospects, you can spread good health all around.

Also, we must not forget that it's important for us to give back to the society. By expanding our network, by bringing people who have suffered financially during the pandemic an opportunity to earn Wellth, we can truly give back to the society. There can't be any better alternative to people in search of a livelihood opportunity than Vestige.

As we continue to deliver on our pledge to provide wellness and success to everyone equally, we have been bringing forth new and innovative products regularly. At the same time, we are using technology to upgrade many of our existing products so that you equally benefit from them and live a healthier life than at present.

In the months to come, we will ensure that you will get more innovative products that will not only take your health to the next level but will also help you grow your business exponentially. Do not forget to attend Vestige's online trainings and meetings to upgrade your skills and contribute to the endeavour to transform people's lives and add a healthy intervention in each one of them.

I hope to see you grown manifold, in a far better health and overall wellness when we meet next. I wish you all great success in transforming the lives of others, your own life and of course in enriching the overall Vestige journey.

Stay safe and healthy!
Wish You Wellth!

GAUTAM BALI
MANAGING DIRECTOR

VESTIGE + HEALTH = THE KEY TO SUCCESS

We live in times of great upheaval and health has received unprecedented focus due to the raging pandemic and mankind's struggle against it. Health and wellness is taken much seriously at this point in time by people around the world, and preventive wellness has become a trend. In this segment, the business of health supplements, nutraceuticals and Ayurvedic medicines have increased manifold in India vis-à-vis other years.

According to a research¹, it has been found that India had 150 million nutraceutical product consumers in 2014. There are around 10 million people in the super health-conscious category in India. This category has been 75% compliant with the health routine and contributed 18% growth to the nutraceutical category amid the pandemic². With this, the other sections of the population contributed 6% to 10% in the growth of the category in India. This provides a big opportunity for the health supplement and nutraceutical sectors to tap on to add to its growth.

There is an estimate that globally the nutraceuticals industry will grow to become a \$336 billion industry by 2023 at a compound annual growth rate (CAGR) of 8% per annum. The Indian nutraceuticals industry has been, at the same period, growing at a CAGR of 21% and by 2023 it will worth \$11 billion. This will increase India's global market share from 2% in 2019 to 3.5% in 2023³.

According to another study⁴, 67% respondents said they have increased their regular healthcare supplement intake after the pandemic hit them and there has been a general growth in the immunity segment. While in 2019, the immunity product sales proportion was 3.9% in the FMCG portfolio, it increased to 13.5% in 2020⁵. This shows that there is a large opportunity in the sector of health and wellness, particularly in nutraceuticals and health supplements that can ensure financial security and growth for those entering the segment.

The Indian direct selling industry has always stayed ahead in the race to provide customers with value-for-money and effective health supplements and nutraceuticals. India's home-grown direct selling company Vestige, which is the only Indian-origin company to rank 36 among the world's top 100 companies according to the Direct Selling News' Global 100 Awards 2021, has a wide portfolio in do-good products and its healthcare supplements, nutraceuticals and Ayurvedic proprietary medicine products are well acclaimed. The exponential growth of Vestige's network--at 20 million now--proves beyond doubt that the company's customers are loyal as they are getting value for their money from the products.

In the volatile economic situation caused by the pandemic, people have focused on two essential parts of their lives. Firstly, they want safety of their family in terms of health. This can only come by boosting immunity by following a healthy dietary and lifestyle pattern over a period of time and Vestige's world-class products can assist people in enhancing their health and well-being. Secondly, due to the gloomy economic situation, people are searching for secure income opportunities that can help them invest in the future. Due to lack of formal jobs in the economy, direct selling can provide them with an opportunity to redefine their financial, social and entrepreneurial positions.

By adhering to the mission of spreading wellness all over through the science of Cellular Nourishment Therapy (CNT), which focuses on strengthening human cells through good food, water and air to build stronger health, aspirants looking to build a successful career can tap on the potential of the nutraceuticals and health supplement markets and cater to the growing needs of the consumers. This will, on the one hand, help to enhance public health, and, on the other, it will bring forth immense financial benefits for the entrepreneurs taking up direct selling as a career.

To grow amid the pandemic and to transform people's health for better, the magical combination of healthcare and Vestige can do wonders. All aspiring entrepreneurs who have been eager to make a difference in the world can take up this astounding opportunity and reshape their destiny according to their will.

DOUBLE CROWN DIRECTOR

HASAN AHMAD

Lakshmipur, Chattogram

I was fortunate enough to come across Vestige as it changed my life forever. I was living a normal life with nominal income every month but I wanted to live a life of luxury. Vestige made it possible for me to live my dream and now I can afford a lifestyle which was previously out of my reach. I am extremely thankful to Vestige for all the support and kudos to Mr Bali for coming up with such a unique platform. Vestige has the power to transform lives.

UNIVERSAL CROWN DIRECTOR

MD. KHAIRUL ISLAM

Dhaka, Dhaka

Just by encouraging my friends and family to further share Vestige's products with their acquaintances, I have reached such a position. High-quality and affordable products are what let Vestige stand out from the crowd. I was first impressed by these products when my upline gave me a chance to sample them. Soon, when I started sharing them with my friends and family, I decided to join as an independent distributor. Thank you, Vestige, for giving me everything.

RAQIB HOSSAIN

I have achieved this level of success within the organisation and this is due to a combination of several factors - the management, the support of my downlines and, most of all, the products themselves. Were it not for Vestige offering world-class products at great prices, none of this would've been possible.

MD. MOKHLESUR RAHMAN

Being an entrepreneur is such a rewarding experience and I credit Vestige for starting me off in this path. Now I am financially independent and earning enough to support my loved ones! Thank you to Vestige for helping me achieve this level of respect in society.

MD. ABDUL KHALEQ RANA

The first thing that impressed me about Vestige was that they offer bonuses like Car Fund, House Fund and Travel Fund. I realised that this company covers their distributors and makes sure to give them incentives to work towards. This motivates me to work hard and gain greater success.

MD MAHMODUL HASAN

I had never thought that I would become someone who would be running my own business, but here I am. This company has helped me gain the confidence I needed to be the successful person I am today. Vestige has helped me express my talents in unique ways.

MOHAMMAD SAHADAT HOSSAIN

This business changed my life completely. This platform motivates me to put my best foot forward and put health at the forefront of my mind. I was recommended this platform by a friend and I always thank them for introducing me to this company. I will try hard to help my team reach my level of success as soon as possible.

MD MOFIDUL ISLAM

Follow the success plan and I have faith that you too will find success with your hard work. In Vestige, you have to give in your all in the short term to gain success in the long term. Working hard is the key to success in this company and this is how I managed to achieve such success.

MD SHOWKAT HOSSAIN UZZAL

Vestige opens so many doors, one only needs to step up and see the good things come through. Now I am my own boss and my life is under my control; Vestige has given me this great gift. I meet and interact with many new people at Vestige seminars and am always in the process of learning new things.

ANAMUL HAQUE RANZU

I am very thankful to God for sending me this opportunity and my upline for always supporting me. Before learning about Vestige, I was unhappy and dissatisfied with my quality of life. My upline showed me that there was a way out, which is how I became an independent distributor with Vestige.

MD. RUBEL MIA

In my years of experience in the direct selling industry, I have found that the product is truly the "king". Without believing in the product and without personally using and sharing it, it is hard for a business to grow and for a loyal fanbase to form. Vestige's line of products is impressive and that, combined with an excellent business plan, are what make Vestige the "king". I am very proud to be a part of this amazing family.
